

MAHNOOR SARFRAZ

FRONTEND ENGINEER | React.js | TypeScript | JavaScript

mahnoorsarfraz23@gmail.com | +92 335 4624180 | Sialkot District, Punjab, Pakistan | Portfolio Link | GitHub Profile | LinkedIn Profile

SUMMARY

Frontend Engineer with hands-on experience building responsive, scalable, and user-focused web applications using React.js, JavaScript, TypeScript, Redux Toolkit, HTML5, CSS3, and Tailwind CSS. Skilled in developing reusable UI components, integrating REST APIs, optimizing application performance, and delivering production-ready solutions. Experienced collaborating with cross-functional teams in remote environments and solving complex frontend challenges through clean, maintainable code. Strong problem-solving abilities demonstrated through 100+ LeetCode challenges and real-world development projects.

PROFESSIONAL EXPERIENCE

Junior Frontend Developer | Techsark

12/2025 – Present | Remote

Project: Qafalah Ecosystem

Tech Stack: React.js, TypeScript, JavaScript, Redux Toolkit, REST APIs

- Developed and maintained frontend features for the Qafalah ecosystem, a platform designed to manage visa processing, Tanazul transfers, and related workforce management operations.
- Built responsive and reusable React components to improve application scalability and maintainability.
- Integrated REST APIs and managed application state for seamless user experiences.
- Collaborated closely with backend developers, QA engineers, and product stakeholders to deliver production-ready features.
- Optimized application performance and resolved complex frontend issues across multiple modules.
- Participated in code reviews and followed modern frontend development best practices.
- Ensured cross-browser compatibility and responsive design across desktop and mobile devices.
- Contributed to feature enhancements, bug fixes, and continuous improvement of existing applications.

Key Features Worked On

- Visa Management System
- Tanazul Transfer Management
- Employee/Worker Tracking Modules
- Status Tracking & Workflow Management
- Dashboard and Reporting Interfaces
- User Authentication & Role-Based Access Control

React Developer Intern | Tech Fighters

05/2024 – 10/2024 | Remote

- Built responsive user interfaces using React.js and JavaScript.
- Integrated APIs and developed reusable UI components.
- Collaborated with development teams using Git and GitHub.
- Improved application functionality through debugging and performance enhancements.

EDUCATION

BS in Computer Science, Government College Women's University Sialkot

2022 – 2026 | Sialkot, Pakistan

CGPA: 3.75

Coursework: Data Structures, OOP, Web Development, DB Systems

Intermediate in Computer Science (ICS), Shadab Girls College, Sialkot

2020 – 2022

Ist Division

TECHNICAL SKILLS

Frontend

- JavaScript (ES6+)
- TypeScript
- React.js
- Redux Toolkit
- HTML5
- CSS3
- Tailwind CSS
- Bootstrap
- Responsive Web Design
- REST API Integration

Backend

Node.js, Express.js
Mongo DB, Firebase

Development Tools

- Git
- GitHub
- VS Code
- Postman
- Chrome DevTools

PROJECTS

Doctor Appointment Web Application

- A full-stack web application that allows patients to **book, manage, and track doctor appointments** online with ease.

Mern Estate

- Sahand Esatte is the best place to find your next perfect place to live we have widr range of properties for you to choose from.

Tech Fighters

- Built using **React.js, Tailwind CSS, and JavaScript**, the project emphasized **component reusability, responsive design, and API integration** to manage real-time data efficiently.
